ALEX CHEN

San Francisco, CA | (510) 555-0142 | alex.chen@berkeley.edu | github.com/alexchen-ai

EDUCATION

University of California, Berkeley May 2026
Bachelor of Science in Electrical Engineering & Computer Science | GPA: 3.92 / 4.0

TECHNICAL SKILLS

Languages & Frameworks: Python, PyTorch, Transformers, Deep Learning, Machine Learning, Scikit-Learn
Tools & Infrastructure: Docker, Git, Linux, FastAPI, Weights & Biases, Computer Vision

EXPERIENCE

Berkeley AI Research (BAIR) - Undergraduate Researcher 2024 - Present

- Conduct research on parameter-efficient fine-tuning (LoRA) and vision transformers.
- Accelerated multi-GPU training throughput by 28% using PyTorch FSDP.

PROJECTS

DiffusionLens: Open-Source Latent Diffusion Pipeline

- Built conditional image generation pipeline using PyTorch with classifier-free guidance.
- Packaged model serving endpoint with FastAPI and Docker containerization.
