JORDAN LEE

DATA SCIENTIST & BUSINESS ANALYTICS SPECIALIST

Ann Arbor, MI | (734) 555-0371 | jordan.lee@umich.edu | github.com/jordanlee-data | linkedin.com/in/jordanlee-data

EDUCATION

University of Michigan, Ann Arbor — Bachelor of Science in Data Science & Statistics
GPA: 3.78 / 4.0 | Expected Graduation: May 2026
Relevant Coursework: Applied Statistics, Machine Learning, Database Management, A/B Testing, Time Series Analysis, Statistical Inference

TECHNICAL SKILLS

Languages: Python, SQL, R, Bash
Data Science & ML: Pandas, NumPy, Scikit-Learn, Statistical Modeling, A/B Testing, Matplotlib, Seaborn
Big Data & BI: BigQuery, PostgreSQL, Tableau, Snowflake, Git, Jupyter, Airflow

EXPERIENCE

CarePulse Healthtech — *Data Analytics Intern* (May 2025 - Aug 2025)

- Engineered automated SQL pipelines in BigQuery transforming 2M+ daily patient engagement telemetry records.
- Conducted cohort retention and multivariate A/B testing that improved patient portal 30-day reactivation by 14%.
- Designed interactive executive Tableau dashboards used weekly by VP of Product and Clinical Operations.

KEY PROJECTS

ChurnSight: Customer Lifetime Value & Churn Predictor [Python, Scikit-Learn, Pandas, XGBoost]

- Built customer churn prediction pipeline with 87% ROC-AUC using XGBoost, handling class imbalance with SMOTE.
- Deployed interactive Streamlit app enabling marketing teams to simulate retention discount ROI.

UrbanTransit: Public Transit Delay Forecaster [Python, SQL, Matplotlib, Time Series]

- Ingested 500,000+ historical municipal transit records to predict bus delay likelihood across 35 urban routes.

AWARDS & CERTIFICATIONS

• 1st Place, Midwest University Datathon 2025 | President, Data Science Student Association
